

## All-In-One informative Virtual Reality Headset

- VR OCULUS QUEST 2
- Have a Waiting room in VR
  - Auto Starts in waiting room where 3d Map will be viewed by tourists in VR
  - Map viewed from Top only
  - Large enough to view the map in VR – Width of wall / screen
  - Immersive as possible.

## Looking for support in developing 3d island information map's with 3d icons .

1. 3D MAP (see below)
2. and lists of icons, images... for the map (see below)
3. Cost of removing/ adding, already developed 3d icons and images, from/ to the map ?
4. Custom 3d logo, - price ( a guideline ) ?
5. Can you place a watermark name or logo on the map background ?
6. Load own introduction (with moving feature):
  - fly over/toward map (towards the default top view)
  - (maybe add a "message" and/or a 3d logo)
7. Advanced All-In-One Virtual Reality Headset — 64 GB, 256 quest - Is this enough space?
8. Can you assist with a contact or a software to manage linking these maps to my 360/vr content ?

- please also send your company offering and Your company information on email

## Maps

I am looking to create an immersive VR map of small islands with eco point linked to our cinematic video content and info description with link to our VR worlds. I have a great example of what I want. It would be great to get some insight on how you can help in all areas of development, and on how detailed we can go with the map/features . Initially and what we can reach over time.

3d (icons, Images, points) features: does not have to be in proportion except borders, so abnormal sized buildings, turtle , waves or something alluring, but thins can develop over time)

Please note this is not my map so will need to be different . 3d( from top view )

### **AS SEEN ON this MAP**

**Points (icons)** categories (points duplicated)

Snorkelling

Scuba diving

Beaches

Green Players

Hotels

Bars & restaurants (*not on map*)

Dock/ferry

Boat

Health centres

View points

**Points (Images)** Category and different Types/species ( not duplicated)

Fishes \* ( 8-10 specie types)

Sea house

Turtle

Monkey \*1

Dragon fly

Butter fly

Beatles

Birds

Clouds

(can we add moving features to the images above: clouds moving across screen. Fishes Tail moving, bubble coming out of the turtles mouth, trees or monkeys hair blowing in the wind etc.

This Dose not have to be for all images and small movements, that are cost effective and easier to design, So I believe.

### **Island & water**

#### **3d Trees**

### Part 2: Addition products that you may be able to assist in:

(do not have to quote on the below right now)

1. For future – I would also like to offer my clients products such as:
  - a) Building exterior 3d mapping
  - b) Building interior 3d mapping
2. For future - 3d mapping drone
  - a) Do you have a contact for 3d modelling
  - b) We supply you with A DRONE FLIGHT PATH picture
    - a. Time frame for mapping? Hours days /.....km -per site
